The letter box

I think that only half the story appeared in your March edition—of course I'm talking about the story on Tamarindo (the missionary in Puerto Rico.)

There are two Kresge stores in Ponce, and if I'm not in one I'll probably be in the other. They are really my favorite stores!

Since I exist on donations from my Sisters in our religious community and the donations of family and friends, I must be very careful of how I spend money. Each time I entered Kresge, when I opened the Kinder, the different employees would let me know of the special sales on toys or clothing. Since the children here did not have any toys the smallest ones were an instant success. My top price was about 50¢.

Last summer I went to the states to visit my family. There I found a

Kresge store that was closing. I really outdid myself in the toy department. Two days later I returned to Puerto Rico with 109 pounds of baggage; 44 is allowed. Most of these toys I saved for Christmas. Each girl had a doll and each boy a truck or car.

Special thanks must be given to Jack Kill and Manny Rodriguez, Store 1904, for their many trips up the hill and their untold number of good deeds for the children here. Also to the manager of the store in Centro del Sur shopping center (1907, Manager John Souders) for his unfailing kindness and courtesy, and to the employees of both stores for the clothing they collected and for the books and pencils they bought and donated to the center. May God bless each one of them for their kindness and generosity.
